DETAILED ACTION

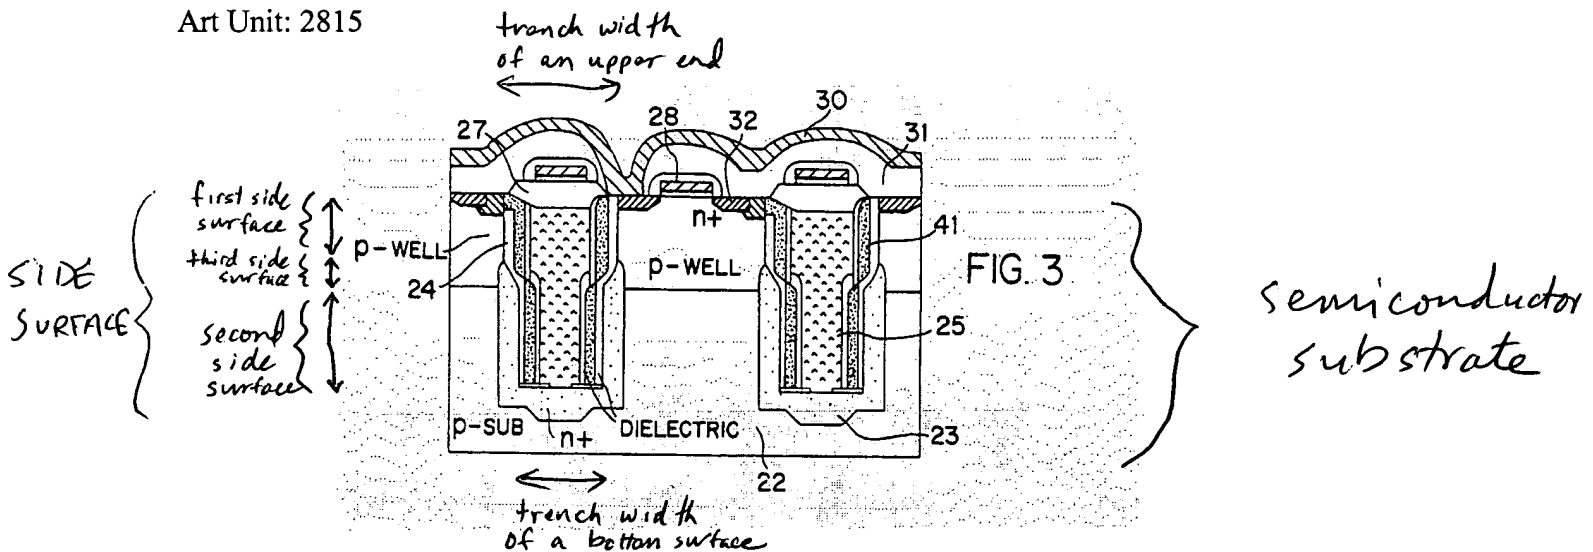

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1 thru 3, 6, and 18 are rejected under 35 U.S.C. 102(b) as being anticipated by Lee et al. 5,223,447. Lee discloses (see, for example, FIG. 3) a DRAM cell (semiconductor device) comprising a semiconductor substrate 22/33, and an isolation merged trench (element isolation trench) wherein the isolation merged trench is embedded with a field oxide film (insulator) 24. The trench width of an upper end, trench width of a bottom surface, side surface, first side surface, second side surface and third side surface are identified below (from FIG. 3 of Lee et al. '447). The trench width of an upper end is larger than the trench width of a bottom surface. The length of the side surface located between the upper end and bottom end is larger than a straight line connecting the upper end and bottom end. The first side surface and second side surface are perpendicular to the substrate and are connected by an inclined third side surface.

Response to Arguments

3. Applicant's arguments with respect to claims 1-3, 6, and 18 have been considered but are moot in view of the new ground(s) of rejection.

Regarding applicant's new limitation "said element isolation trench being substantially embedded with an insulator", see, for example, FIG. 3 wherein Lee discloses an isolation merged trench being substantially embedded with a field oxide film (insulator) 24.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

Art Unit: 2815

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
